

## Kiss Me Anyway

Steve Wariner

Here you come rolling off the highway  
With a smile and a wave  
And you put your arms around me  
Like you left here yesterday  
The last time you flew I said we were through  
But now that you're standing here I melt into you.

Oh I've been missing you  
Dreamin' of kissing you  
I think that you go so I will beg you to stay  
It's an addiction a hopeless affliction  
I love you I hate you but hey  
Kiss me anyway.

I'm good at forgetting all about you  
For weeks at a time  
Just when I think I can live without you  
You come back in my life  
I should tell you no turn around and go  
But all I can think of is holding you close.

Oh I've been missing you  
Dreamin' of kissing you  
I think that you go so I will beg you to stay  
It's an addiction a hopeless affliction  
I love you I hate you but hey  
Kiss me anyway.

The passion the power  
So intoxicating  
When you spin your web  
There's no escaping.

Oh I've been missing you  
Dreamin' of kissing you  
I think that you go so I will beg you to stay  
It's an addiction a hopeless affliction  
I love you I hate you but hey  
Kiss me anyway...
