Kiss Me Anyway

Steve Wariner

Here you come rolling off the highway With a smile and a wave And you put your arms around me Like you left here yesterday The last time you flew I said we were through But now that you're standing here I melt into you.

Oh I've been missing you Dreamin' of kissing you I think that you go so I will beg you to stay It's an addiction a hopeless affliction I love you I hate you but hey Kiss me anyway.

I'm good at forgetting all about you For weeks at a time Just when I think I can live without you You come back in my life I should tell you no turn around and go But all I can think of is holding you close.

Oh I've been missing you Dreamin' of kissing you I think that you go so I will beg you to stay It's an addiction a hopeless affliction I love you I hate you but hey Kiss me anyway.

The passion the power So intoxicating When you spin your web There's no escaping.

Oh I've been missing you Dreamin' of kissing you I think that you go so I will beg you to stay It's an addiction a hopeless affliction I love you I hate you but hey Kiss me anyway...
