

# Quick As I Can Make It

Steve Wariner

With the high price of gasoline  
I need an ATM machine  
To keep the money coming  
To keep my motor running  
Does a working man stand a fighting chance  
Of even coming close to breaking even at the end of the day  
Hear what I say  
I've been breaking my back for an honest wage  
But quick as I can make it  
Somebody wants to take it away

If I could win the lottery  
Brother I can guarantee  
Uncle Sam would grab it  
Even before I had it  
Get my income and then some  
Leaving me sitting 'round wondering where the money went  
I never even spent  
My piece of the pie gets smaller every day  
Quick as I can make it  
Somebody wants to take it away

I pay a high price for barely getting by  
I'm on thin ice and trying to let it slide

When the money's gone they're calling on the phone  
I tell 'em I got nothing in the world but hell to pay  
What else can I say  
Everywhere I turn there's a hand in my face  
Quick as I can make it  
Somebody wants to take it away

I pay a high price for barely getting by  
I'm on thin ice trying to let it slide

Does a working man stand a fighting chance  
Of even coming close to breaking even at the end of the day  
In the USA  
I've been breaking my back for an honest wage  
Quick as I can make it  
Somebody wants to take it away

I've been breaking my back since the break of day  
Quick as I can make it  
Somebody wants to take it away
