

## Sails

Steve Wariner

Sails are just like wings, you can fly from things  
Run before the wind, Lord, let it blow  
Let it rock me slow while I sleep below  
Dreaming dreams that only sailors know

It will soothe your mind, smooth away your lines  
Set your clock back on your own time  
If you sail with me, we will find the sea  
We will find our love over again [x2]

We will find our love over again
