Talk To Her Heart

Steve Wariner

Boys we're living in a brave new world

Let me tell you what I've learned about girls

In this age of high tech and state of the art

When it comes to love you've still gotta talk to her heart

She can have a college degree MBA or a Ph.D.

She can be strong and she can be smart

But when it comes to love, you've still got to talk to her hear

t

You got to be honest you got to be real You got to tell her how you really do feel Don't talk about fishin' don't talk about cars Talk about the moon and talk about the stars Tell her she's beautiful just talk to her heart

You got to be honest you got to be real You got to tell her how you really do feel Don't talk about fishin' don't talk about cars Talk about the moon and talk about the stars Tell her she's beautiful just talk to her heart

Well there's been alot of changes since time began
But nothing's changed between a woman and a man
It's how things were it's how things are
When it comes to love you've still got to talk to her heart
When it comes to love you've still got to talk to her heart
