

This Real Life

Steve Wariner

The thunder roars lighting strikes
Down the hall, the baby cries
Can't stop the rain from up above
We're short on sleep but long on love

This is real life, this is our life
It's a hard life but a good life
We wander down the road, share a heavy load
And somehow it always turns out right
Walking heart to heart through this real life

Roll up our sleeves, a little sweat
What we put in is what we get
We want our wants but have our needs
We're short on time and long on dreams

This is real life, this is our life
It's a hard life but a good life
We wander down the road, share a heavy load
And somehow it always turns out right
Walking heart to heart through this real life

Some days, I feel like we're just feathers on the wind
But no matter how hard it gets, I wouldn't trade this in

This is real life, this is our life
It's a hard life but a good life
We wander down the road, share a heavy load
And somehow it always turns out right
Walking heart to heart through this real life
