## You Be My Everything

## **Steve Wariner**

The competition's getting tough Good enough ain't good enough Lately I've been workin' way too hard.

Go ahead and take my hand Forget about the rainbow's end I'd have it all if you were in my arms.

So you be my everything
And I'll be the one who loves you
I don't want you to just wear my ring
I want you to be my everything.

When you wish upon a star What you dream is what you are You've got to find your true identity.

I don't want no quick success
The bottom line is happiness
What I need is you right here with me.

So you be my everything
And I'll be the one who loves you
I don't want you to just wear my ring
I want you to be my everything.

I've been all over the world And I've only learned how much I want you girl.

You be my everything
And I'll be the one who loves you
I don't want you to just wear my ring
I want you to be my everything...
