

# Big Girls Walk Away

Steve Winwood

You hold your broken heart out  
And you say it just won't stop hurting  
Like there's something I can do

The rule is so plain  
Party girl play like it's laying  
Pack it up-hear what I'm saying  
The party's over-better walk away

Turn the page-look, and listen  
Somewhere music plays  
Planes leave every day  
Big girls walk away

You want to play with princes  
On a million dollar holiday  
But you never met their mothers

You just go so high  
Party girl just keep the earrings  
Nothing else is worth a damned thing  
Just save the party for another day

You know this old world is wide  
And you're to catch another ride  
You just go till you come out the other side
