

# Come Out and Dance

Steve Winwood

Come out and dance with me, darling, on that funky side of town  
Come out and rock with me, baby, shake it up and dance it down  
When you hear that good band play, it'll make you want to fool  
around  
You can't sit down

I've got some moves for you, baby, that I learned from way back  
when  
I've got a feel for you, baby, you'll believe in love again  
When I knock on your door, you'll let me in  
In love again

We go round and round, don't know where we're bound  
Long as there's a beat I'll hang around, for one more round

Now baby, don't read the papers, 'cause they always make you sad  
And honey, don't watch the TV 'cause the news is always bad  
Come and dance with me tonight and you know your heart will be  
so glad  
So very glad

Baby, don't you know the reason grandma smiles at grandpa so?  
Grandpa can still keep it moving like he did so long ago  
Grandma says, "Hold me tight and don't let go"  
Like years ago

Baby this is true romance, take it while you see a chance  
If we got everyone dancing, wouldn't be no time for war  
If they got into the feeling, they'd find out what life is for  
Every day you'd hear them say, "This has got to be what life is  
for"  
And dance some more
