## **Hungry Man**

## **Steve Winwood**

Hot desert wind Burning sand But this land it is my land Wait by the well Rain don't come River's dry Pray for my son I'm just one, one more poor hungry man Yes, I'm just one more poor hungry man Sun in the sky Hurts my eye Mouth all dry May God help me Wait by the road Man don't come Rice all gone For thirty miles I'm just one, one more poor hungry man I'm just one, one more poor hungry man Yes, I'm just one more poor hungry man I'm just one, one more poor hungry man Shout at the truck Passing by No reply Dust in my mouth Somebody soon Find me here Drowning here In baby's tears Love in the world Hear me soon Save us all And save my child Birds in the skies Flying low Baby no His tears all dry. I'm just one, one more poor hungry man I'm just one, one more poor hungry man I'm just one, one more poor hungry man Yes, I'm just one more poor hungry man I'm just one, one more poor hungry man Yes, I'm just one more poor hungry man I'm just one, one more poor hungry man Yes, I'm just one more poor hungry man
