

Stevie's Blues

Steve Winwood

Well, so sad and lonely since my baby went away from me
Well, so sad and lonely since my baby went away from me
Well, black night has fallen, hum, oh how I hate to be alone

Well, I woke up this morning, I found out my baby's gone away from me
Well, I woke up this morning baby, found out my baby's gone away from me
Well, black night has fallen, oh how I hate to be alone

I got the blues about my baby
Girl, you know I'm about to go out of my worried mind
I got the blues about my baby
Girl, you know I'm about to go out of my worried mind
Well black night has fallen, girl I just ain't used to your kind.
