

## Bring The Magic

Steve Wynn

Fifty thousand watts from the back of my Impala  
Wolf man Jack is on the line tonight  
Everybody's hungry for someone or something  
And everything I care about is clean out of sight  
Bring the magic, bring the magic  
Bring the magic to me  
Bring the magic, bring the magic  
Bring the magic to me  
All I do is dream inside my radio  
Cadillacs and Bonnevilles are making the scene  
Lipstick kisses blown across the double line  
Landing lightly on a stretch Limousine  
Bring the magic, bring the magic  
Bring the magic to me  
Bring the magic, bring the magic  
Bring the magic to me  
When I dream I dream of nothing  
I wait for something to take me away  
I keep a good friend in the backseat of my ride  
I drive until I see the light of day  
Bring the magic, bring the magic  
Bring the magic to me  
Bring the magic, bring the magic  
Bring the magic to me  
Bring the magic, bring the magic  
Bring the magic to me  
Bring the magic, bring the magic  
Bring the magic to me  
Bring the magic to me
