

# It Only Comes Out At Night

Steve Wynn

By: Steve Wynn

I know it's time for leaving  
I don't wanna look in your eyes  
You say: "I never noticed you anyway"  
So it should come as no surprise  
I can hear you leave  
I guess it's alright  
You say that I got no heart  
but it only comes at night  
They say, don't know what you have  
Today it ain't what you've got  
They say I'll find out how much I miss you  
But you know that I'd rather not  
Now it's time for leaving  
It's gonna be alright  
You say that I got no heart  
but it only comes at night  
You say I'll never find another  
to love me like you do  
But what good is some kind of lover  
Who would do, do those things to you?  
Don't go by that door  
I'll get it myself  
soon as you're leaving  
is replaced by someone else  
I don't wanna see you  
don't turn on the lights  
You say that I never saw anything  
but it only comes out at night
