

11-6-64

Steven Curtis Chapman

11-6-64 The sun shone a whole lot brighter
Than ever it had before- smiling down on me
At 1:09 PM both hands of time stopped turning
And you came waltzing in to change my world for good

And I was only 2 years old
So really, I don't know
Exactly what was going on
But I, I bet I laughed and played
Harder on that day
'Cause my whole world was changin' on

11-6-64 You breathed your first breath
And suddenly living life meant so much more
On the day that you were born

And I, well I was only 2
So I didn't have a clue
Of all that was transpiring
But I, I bet the sky was blue
And all the world looked new
'Cause everything was changing on

11-6-64
You breathed your first breath
And suddenly living life meant so much more
On the day that you were born

11-6-64
Suddenly living life meant so much more
On the day that you were born.
