

Christmas Kiss

Steven Curtis Chapman

Your kiss is all I'm wishing for this Christmas
A kiss from you is all I really need
We'll turn the lights down low
And hang some mistletoe
And slow dance while the music softly plays

Your kiss is all I'm asking for this Christmas
One little kiss, well maybe, let's make it two
If that's alright with you
Piles of gifts wrapped up with pretty bows
Won't thrill me like holding you close
Will you make my Christmas wish come true
And kiss me

Tell Santa not to worry
I'll have everything I need
Just as long as I have you here in my arms
This Christmas Eve

Your kiss is all I'm hoping for this Christmas
One kiss from you or maybe three or four or maybe even more
Well, I've written out my list
And it all comes down to this
Your kiss is all I'm hoping for
Tell Santa I don't need anything more
Your kiss is all I'm asking for this Christmas
