

Only Natural

Steven Curtis Chapman

Mirror, mirror on the wall
Who's the biggest fool of all
You don't have to answer me
'Cause when I look at you I see
A prisoner set free from his chains
Acting like he's still a slave
To the prison he's been set free from
You may say it's only natural for me to act his way
Well I know it's only natural
But I have not been made...

Only natural, only natural
I've got the Spirit of the living God alive in me
Giving me power so I don't have to be
Only natural, only natural

So mirror, mirror look again
You've seen the fool that I have been
But did you see the grace that covers me
Not to do anything I please
In fact, grace is the only thing
That makes me what I am not naturally
It's supernatural power brings life out of the grave
It gives sight to the blind man
And it will not let me stay...

Only natural, only natural
I've got the spirit of the living God alive in me
Giving me power so I don't have to be
Only natural, only natural
I know that on my own I'm only human naturally
But I've got the Spirit of the living God alive in me
Giving me power so I don't have to be...
Only natural, only natural
