

# Together

Steven Curtis Chapman

Here we stand, here we are  
With all our wounds and battle scars  
From all the storms and all the wars we've weathered together  
We had no way of knowing when  
We started way back there and then  
How the road would twist and turn and bend  
We just knew we belonged together

And if it wasn't for God's mercy and His grace  
There's no way we would be standing in this place  
But because He has been faithful  
Every step along the way  
Here we are together

We've climbed up mountains higher than  
Were ever in our hopes and plans  
We've held onto each other's hands  
Watched miracles unfold together  
And we've crawled on our hands and knees  
Through valleys cold and dark and deep  
Sometimes not even sure if we could make it out alive together

And if it wasn't for God's mercy and His grace  
There's no way we would be standing in this place  
But because He has been faithful  
Every step along the way  
Here we are together, together

And if it wasn't for God's mercy and His grace  
There's no way we would be standing in this place  
But because He has been faithful  
Every step along the way  
Here we are together, together
