What Am I Doin' Right?

Steven Tyler

I'm rotten to the core
What you hangin' with me for
You're worth the wait, like the desert rain
I light up when you say my name
It's time to change the road I'm on
I've lost at love for so damn long

Tell me what it is I'm doin' right
'Cause I don't wanna mess this up tonight
It's like I can't do anything wrong
I ain't even tryin' and she just turned down the light
What am I doin' right

What am I doin' right

Waitin' on the other shoe to drop
I'm thinkin' that I'm thinkin' this is somethin' that it's not
You're what's true was the words in red
You're the promise Momma said
Like a prayer nailed to a door
I guess I never prayed before

Tell me what it is I'm doin' right
'Cause I don't wanna mess this up tonight
It's like I can't do anything wrong
I ain't even tryin' and she just turned down the light
What am I doin' right

What am I, what am I doin' right

Kiss me now while we're still young
Words rolled off my silver tongue, yeah

Tell me what it is I'm doin' right
'Cause I don't wanna mess this up tonight
It's like I can't do anything wrong
I ain't even tryin' and she just turned down the light
What am I doin' right

What am I doin' right
What am I, what am I doin' right
Ooh
