Significant Other

Steven Wilson

Pullin' back from the precipice Feel so small now, stars shine bright above Don't know why Receive a better life for a song Can't but try, other leads apply

Lookin' up at tragic rush on underground Birds will turn and fly Don't know why Passin' through the day, only child Breathe a sigh, other leads apply

Raining all day, trying to reach you Feel so helpless, can't stop counting time (but in) Don't know why, hands (something) stealin' my heart Graceful dives', other leads apply* (rain down from the sky)
