## The Raven That Refused to Sing

## **Steven Wilson**

Sing for me Sing for me You can come with me You can live with me Heal my soul Make me whole

(the raven sings in a dream)

Sister I lost you When you were still a child But I need you now And I need our former life I'm afraid to wake I'm afraid to love

Just because I'm weak You can steal my dreams You can reach inside my head And you can put your song there instead Please come to me Please stay with me

Sing to me raven I miss her so much Sing to me Lily I miss you so much
