

Well You're Wrong

Steven Wilson

Don't wanna see anybody
Don't wanna see anybody but you
Don't wanna see anybody

Don't wanna feel anybody
Don't wanna feel anybody but you
Don't wanna feel anybody

Tell me how does it feel, when you want to be real
But there's nothing inside?
I wish I could explain
Why the sound of the rain
Brings you into my mind

Whatever you think
Well you're wrong

Don't wanna need anybody
Don't wanna need anybody but you
Don't wanna need anybody

Don't wanna leave anybody
Don't wanna leave anybody but you
Don't wanna leave anybody

Tell me how does it feel, when you want to be real
But there's nothing inside?
I wish I could explain
Why the sound of the rain
Brings you into my mind

Whatever you think
Well you're wrong
