

You Are The One

Stevie B

Many nights
I lay awake and
I think about the things we said
Just holding on to what we had
And hoping that it's not the end
Cause your love is what i'm thinking of
I need you close inside my arms
Cause you are the one that I do need
My heart is what i will give you

Cause you are the one that makes me smile
You are the one that I need now
You are the one that I adore
And baby i want u back once more

Everyday without your lovin
Is just a life of misery
I wonder if you're thinking of me
And if you'll ever come to see
Cause your love is all i'm thinking of
I need you close inside my arms
Cause you are the one that I do need
My heart is what I will give you

Cause you are the one that makes me smile
You are the one that I need now
You are the one that I adore
And baby i want u back once more

You are the one that makes me smile
You are the one that I need now
You are the one that I adore
And baby i want u back once more

Cause your love is what i'm thinking of
I need you close inside my arms
Cause you are the one that I do need
My heart is what I will give you

Cause you are the one that makes me smile
You are the one that I need now
You are the one that I adore
And baby i want u back once more

You are the one that makes me smile
You are the one that I need now
You are the one that I adore
And baby i want u back once more

You are the one that makes me smile
You are the one that I need now
You are the one that I adore
And baby i want u back once more
