

Young Girl

Stevie B

Babe you're young
And you think that you know what you feel
Deep in your heart
Do you know what's real?
Or is this just a new teenage love?
You've got to be sure.
She looked into my eyes
And said what's going on
I've spent my time with you
You know my love is strong
Cause deep inside my heart
I know what i feel
I'm ready to grow up
Cause my love is real
Her mother looked at me
And said she's just 17
She looked at me and said
Stevie just what does that mean
Cause age is just a number
Chorus:
Young girl get outta my life
My love for you is way outta line
Im too old for you (i'm too old for you)
Girl, you're just too young for me
You know sometimes
I feel i should just run away
When i hear your voice say
True love is blind
And you just can't choose who you love
Cause God makes that choice
Wouldn't it be so sad
If i should let her go
You know this hurts so bad
And i wish i could know
She came into my world
And changed my life around
I can't just break her heart
Cause it's true love i've found
You know you're family said
You know you're just 17
She looked at me and said
Stevie just what does that mean
Cause age is just a number
Young girl get outta my life
My love for you is way outta line
Im too old for you (im too old for you)
Girl, you're just too young for me
Young girl, i'd like to have you for my wife
I'll stay with you for the rest of my life
Girl, why can't you see? (girl why can't you see?)
That this is so hard for me
Babe you're young
And you think that you know what you feel
Deep in your heart
Do you know what's real?
Or is this just a new teenage love?
You've got to be sure.

She looked into my eyes
And said what's going on
I've spent my time with you
You know my love is strong
Cause deep inside my heart
I know what i feel
I'm ready to grow up
Cause my love is real
You know your family said
You know you're just 17
She looked at me and said
Stevie just what does that mean
Cause age is just a number
Chorus until fade....
