

All My Love

Stevie Hoang

Oh...
Oh yeah yeah
My baby

You know I cannot explain
How it feels when we touch
Everywhere I go I call your name
It keeps me strong to carry on
Sometimes when all hope is gone
Your love is there to guide me through
Til the end of time my love is yours

When we fly
Feels like your loving takes me high
The stars are shining on this special night
Feels like true love is in the air
Love is in the air baby

You know I cannot explain
How you just got me this way
You make me wanna give all my love to you
And every time that you're not here
You know it drives me crazy
You make me wanna give all my love to you
All my love
Whoa whoa

All the little things I will do
Like crawl my fingers through your hair
Bring you breakfast when you are in bed
To let you know I really care
Baby I won't treat you wrong
Cause I don't wanna see you cry
With me your lonely days are gone

It feels so right
Waking up with you here by my side
Girl I never wanna say goodbye
This love that we have will never end
This love will never end

Baby
You know I cannot explain
How you just got me this way
You make me wanna give all my love to you
And every time that you're not here
You know it drives me crazy
You make me wanna give all my love to you

So many times I wondered to myself if I would find
A special kind of love to hold me down and change my life
And now you're here girl I will always be right by your side
Right by your side

You know I cannot explain
How you just got me this way
You make me wanna give all my love to you

And every time that you're not here
You know it drives me crazy
You make me wanna give all my love to you

You know I cannot explain
How you just got me this way
You make me wanna give all my love to you
And every time that you're not here
You know it drives me crazy
You make me wanna give all my love to you

You know I cannot explain
How you just got me this way
You make me wanna give all my love to you
And every time that you're not here
You know it drives me crazy
You make me wanna give all my love to you
