

Cry No More

Stevie Hoang

Baby don't you cry no more
Don't you cry no more

Yeah

Oh baby
See the first time I clapped you from behind
Girl I knew I had to have you by my side
I approached you at the lights and we hooked up
By the weekend we were busy making love
We would talk about our hopes our dreams our fears
You said you never had someone who really cared
I never thought that for one second it could end
I never meant for me to cause you so much pain

Baby don't you cry no more
Baby don't you cry no more
I know I did you wrong
Promise that you'll stay
Baby don't take your love away

Now I've been with all types of girls before you
But I never had a love like this
Girl if you go away my nights would be so cold
You know two wrongs don't make a right
So baby let's just work it out

Remember all the things I use to do
Showing you my love is true
-to roll up tight
Let me be your only one
Girl we got so much to gain
Hold me close I'll ease your pain
I'll be there to comfort you
I'll be there to love you

Baby don't you cry no more
Baby don't you cry no more
I know I did you wrong
Promise that you'll stay
Baby don't take your love away
Baby don't you cry no more
Don't you cry no more

Baby don't you cry no more
Said I'm a better man
Baby don't you cry no more
Said I'm a better man
All those lonely nights
I wasn't by your side

Baby don't take your love away
Baby don't you cry no more
