

# Listen To My Head

Stevie Hoang

The signs were there, chose not to see it  
I keep telling myself not to believe it no  
The more I try, the more I was losing  
It's crazy how this girl had me stressin' oh

I try so hard to make it work everyday  
But now I know, we were never really on the same page  
Convince myself, but I was living a lie  
Now all I'm left with, girl it's wasted time

Gave you everything I had but now I see  
It was never in your plans to stay with me  
And I can't believe I thought you were the one  
I tried to listen to my heart but instead  
I should've listen to my head, my head, my head  
Should've listen to my head, my head, my head  
Should've listen to my head, my head, my head  
I tried to listen to my heart but instead  
I should've listen to my head

To try to please her, I started changing  
Blowin' hot and cold, this girl kept me guessin'  
Caught up without the plans I was making  
So glad I never saw her misbehavin'

I try so hard to make it work everyday  
But now I know, we were never really on the same page  
Convince myself, but I was living a lie  
Now all I'm left with, girl it's wasted time

Gave you everything I had but now I see  
It was never in your plans to stay with me  
And I can't believe I thought you were the one  
I tried to listen to my heart but instead  
I should've listen to my head, my head, my head  
Should've listen to my head, my head, my head  
Should've listen to my head, my head, my head  
I tried to listen to my heart but instead  
I should've listen to my head

Could of gave the world to make you stay  
But to you, our love was just a game  
But I know I'll learn from my mistakes  
And this won't happen again

Gave you everything I had but now I see  
It was never in your plans to stay with me  
And I can't believe I thought you were the one  
I tried to listen to my heart but instead  
I should've listen to my head, my head, my head  
Should've listen to my head, my head, my head  
Should've listen to my head, my head, my head  
I tried to listen to my heart but instead  
I should've listen to my head
