

# Show You Off

Stevie Hoang

When you catch me staring  
I can't help it, I just can't believe you're mine  
When you see me smiling  
I can't hide it, want to take you out all the time  
I just want to show you off, show you off, show you off  
(Woah, woah)  
I just want to show you off, show you off, show you off

How did someone like me  
Get someone like you  
Damn it feels like I won the lottery  
Don't know if I'm awake or if I'm dreaming  
Sometimes I got to pinch myself to see

Damn, all the dude will be staring  
Baby twisting and next  
No matter what you're wearing  
Girl you still look the best  
With or without make up  
Don't matter to me  
You're the girl in the club  
All them hoes want to be

When you catch me staring  
I can't help it, I just can't believe you're mine  
When you see me smiling  
I can't hide it, want to take you out all the time  
I just want to show you off, show you off, show you off  
(Woah, woah)  
I just want to show you off, show you off, show you off

Want to show the whole world  
That you're my girl  
So I'm a to take a picture and put it on facebook  
Friends and families  
Know you're my baby  
Baby telling me, I really don't deserve it

Damn, all the dude will be staring  
Baby twisting and next  
No matter what you're wearing  
Girl you still look the best  
With or without make up  
Don't matter to me  
You're the girl in the club  
All them hoes want to be

When you catch me staring  
I can't help it, I just can't believe you're mine  
When you see me smiling  
I can't hide it, want to take you out all the time  
I just want to show you off, show you off, show you off  
(Woah, woah)  
I just want to show you off, show you off, show you off

It's like hitting the jackpot in Vegas  
It's like winning an award and being famous

It's like my whole life is like a holiday  
And just in case if you ever wonder

When you catch me staring  
I can't help it, I just can't believe you're mine  
When you see me smiling  
I can't hide it, want to take you out all the time  
I just want to show you off, show you off, show you off  
(Woah, woah)  
I just want to show you off, show you off, show you off
