

## My Heart Never Lies

Stevie McCrorie

I've left home, today  
And I saw your face in the window pane  
I'm On my way  
and I'm already counting down the days, turn around & count to  
ten  
And now revive again  
I'm on, In the sky flying above the city lights  
When I fall, You be there  
And I know you'll bring me back to life  
And I'll just count to ten  
And now to see you again  
When I go there's a tear in my eyes  
Every Road is a long sacrifice  
When I say I'm coming home  
I'll always tell the truth  
Cause my heart when I'm with you Never Lies  
Cause my heart when I'm with you Never Lies  
I'll come,  
Today  
and I hear your voice ringing in my head  
It flows away with an end to the sound of lonely day  
So I'll just count to ten  
and I'll revive again  
When I go there's a tear in my eyes  
Every Road is a long sacrifice  
When I say I'm coming home  
I'll always tell the truth  
Cause my heart when I'm with you Never Lies

When you wishing all the stars  
I could see right where you are  
I'll never be that far away  
Keep on wishing all the stars(Yeah)  
When I go there's a tear in my eyes  
Every Road is a long sacrifice  
When I say I'm coming home  
I'll always tell the truth  
Cause my heart when I'm with you Never Lies  
When I go there's a tear in my eyes  
Every Road is a long sacrifice  
When I say I'm coming home  
I'll always tell the truth  
Cause my heart when I'm with you Never Lies  
Cause my heart when I'm with you Never Lies
