

Blue Lamp

Stevie Nicks

There was no message to be found anywhere in sight
Inside or out
I had looked everywhere but the only lamp left on in the house
Was a blue light

I was not ready
I'm no enchantress and I was too proud
Go find some Christmas angel then give that to her
If that's what she wants guardian angel...guardian
If you were wiser you would get out

Downstairs the big old house is mine
Upstairs where the stars still laugh and they shine
Downstairs where the big old house is mine
Outside where the stars still laugh and
Stars still laugh and shine
And the stars still laugh and cry and shine
And the stars still laugh and cry and shine
And the stars still laugh and shine and shine

Don't listen to her, listen through her
Some Christmas angel
Freedom well give that to her
Oh, if that's what she wants, guardian angel...guardian
If you were wiser you would get out

And the light that shines through the shining night
Is a lamp that I carried from my mother's home
And the light that burns through the window pane
And the love remains

And the guardian of your "Challenge" does not cry...
