Blue Lamp

Stevie Nicks

There was no message to be found anywhere in sight Inside or out I had looked everywhere but the only lamp left on in the house Was a blue light

I was not ready I'm no enchantress and I was too proud Go find some Christmas angel then give that to her If that's what she wants guardian angel...guardian If you were wiser you would get out

Downstairs the big old house is mine Upstairs where the stars still laugh and they shine Downstairs where the big old house is mine Outside where the stars still laugh and Stars still laugh and shine And the stars still laugh and cry and shine And the stars still laugh and cry and shine And the stars still laugh and shine and shine

Don't listen to her, listen through her Some Christmas angel Freedom well give that to her Oh, if that's what she wants, guardian angel...guardian If you were wiser you would get out

And the light that shines through the shining night Is a lamp that I carried from my mother's home And the light that burns through the window pane And the love remains

And the guardian of your "Challenge" does not cry...
