

# Ooh My Love

Stevie Nicks

In the shadow of the castle walls  
Wherever those walls were  
Well you used to love to be behind those walls with her  
Within these walls  
Well he watched from the corridor  
Watched from the corner of his eyes  
Seemingly waiting for the time  
When the castle walls would all fall down

Yes it was a strain on her  
Watching her castles fall down  
Oh but there was a time when he called her angel  
Where in the world did you come from?

In the shadow of the castle walls  
Wherever those walls were  
In this land or in that land  
Well the castles all seem to belong to her  
And all this talk about love and hate  
And our separation way on down the line  
Well they just can't wait, can they?  
No they just can't wait

Yes it was a strain on her  
Watching her castles fall down  
Oh but there was a time when he called her angel  
Where in the world did you come from?  
Yes it was a strain on her  
Watching her castles fall down  
Oh but there was a time when he called her angel  
Where in the world did you come from?

There was a light that lighted the way to the chamber  
Where they spent all their time, well  
There was a light that lighted the way to the chamber door where  
They seemed to spend all their time

Ooh my love Ooh my love Ooh my love

Yes it was a strain on her  
Watching her castles fall down  
Oh but there was a time when he called her angel  
Where in the world did you come from?  
Yes it was a strain on her  
Watching her castles fall down  
Oh but there was a time when he called her angel  
Where in the world did you come from?  
Yeah it was a strain on her  
Watching her castles fall down  
Hey, hey, baby No one can take you away from me no no one  
In the shadow of the castle walls
