

Outside the Rain

Stevie Nicks

Outside the rain the heart skips a beat
Oh you're lonely
Creature of the night it's been almost a week
Could you love me only?

Look at me for a very long time
Look long enough to all
Love is a word I've been trying to find
Words don't matter, they don't matter at all

So you're still lonely
You say that it's been forever
Maybe you never knew me
Maybe you thought that I'd never change

But you know I'm changing
You're wrong and it's been like dying
No love's that hard to find
And I'm tired of and I'm tired of trying
And I'm tired of trying

Maybe it's only a dream
I don't want to feel that
Well it's one more link in a chain
I don't believe that

Outside the rain then the heart skips a beat
Oh you're lonely
Creature of the night it's been almost a week
Could you love me only?

Look in my eyes touch my face
Baby, there's no one
That can take my place

Look in my eyes touch my face
Baby, there's no one
That can ever replace that heartache
Take away that heartache

Love is a word that some entertain if you can find it
You have won the game
