

She Loves Him Still

Stevie Nicks

The sands of time
Like shattering glass go past her
Like a tunnel
Goes to the sea
No one heard her call his name
No one heard the sound she made
They wouldn't have liked it much anyway
To know that she still loves him
No one understands this love
No one ever will
Till his dying day
He was heard to say
She loves him still
I miss my friend
I miss the sound of his laughter
She remembers him saying
Well, where are you going
Oh, and just what is it that you are after
No one understands this man
No one ever will
Till his dying day
Not even he himself can change this
She loves him still
So, how are you
Have you learned to deal with this
No, I have not learned
She says, "I cannot deal without him"
But, you know the flame still burns
The flame still burns
No one understands this man
No one ever will
Till his dying day
Not even he himself can change this
She loves him still
Oh, baby
She loves him still
Always
And the sands of time
Like shattering glass go past her
Like a tunnel to the sea
They wouldn't have liked it much anyway
To know that she still loves him
And the sands of time
Like a shattering glass go past her
Just like a tunnel to the sea, yes
Cause she still loves him
She still loves him
She still loves him
Always
