

Two Kinds of Love

Stevie Nicks

Ooh and on you run
You search for love and you hate searching
You wait for love and you hate waiting
You say I hate this
Well it's just another test
'Cause there are two kinds of love
To do the thing that we do the best
My masterpiece

Who in the world do you think that you are fooling
Well I've already done everything that you are doing
Well the two of us, well we must be
A great temptation to have even started
Well don't you know, as you walk on by
That great temptations never really die

Well I talked to my famous friend last night
My third day up well, his second night
He says I don't know how you do what you do how do you
Let the world in
Well I say well there's no way out
Then I just play out the game
Well the two of us Widow and a Dove

Who in the world do you think that you are fooling
Well I've already done everything that you are doing
Well the two of us, well we must be
A great temptation to have even started
Well don't you know, as you walk on by
That great temptations never really die

Ooh the two of us
Estranged sometimes for their very survival
Outraged at each other engaged to each other in their hearts
But they live apart

Two kinds of love
One for the way you walk
One for the way you love me
You're a great temptation

Two kinds of love
One for the way you walk
One for the way you love me
Two kinds of love great temptation
