

# Creepin'

Stevie Wonder

I can hear you sighin'  
Sayin' you'll stay beside me  
Why must it be that you always creep  
Into my dreams?

On the beach we're sittin'  
Huggin', squeezin', kissin'  
Why must it be that you always creep  
Into my dreams, in my dreams?

When I'm asleep at night baby  
I feel those moments of ecstasy  
When you sleep at night baby  
I wonder do I creep into your dreams  
Or could it be I sleep alone in my fantasy?

Oh, love is so amazing  
Guess you will be stayin'  
So let it be that you always creep  
Into my dreams, in my dreams

When I'm asleep at night baby  
I feel those moments of ecstasy  
When you sleep at night baby  
I wonder do I creep into your dreams  
Or could it be I sleep alone in my fantasy?

Oh, love is so amazing  
Guess you will be stayin'  
So let it be that you always creep  
Into my dreams

In my dreams, in my dreams  
In my dreams, in my dreams  
In my dreams, in my dreams  
In my dreams, in my dreams
