

Creepin'

Stevie Wonder

I can hear you sighin'
Sayin' you'll stay beside me
Why must it be that you always creep
Into my dreams?

On the beach we're sittin'
Huggin', squeezin', kissin'
Why must it be that you always creep
Into my dreams, in my dreams?

When I'm asleep at night baby
I feel those moments of ecstasy
When you sleep at night baby
I wonder do I creep into your dreams
Or could it be I sleep alone in my fantasy?

Oh, love is so amazing
Guess you will be stayin'
So let it be that you always creep
Into my dreams, in my dreams

When I'm asleep at night baby
I feel those moments of ecstasy
When you sleep at night baby
I wonder do I creep into your dreams
Or could it be I sleep alone in my fantasy?

Oh, love is so amazing
Guess you will be stayin'
So let it be that you always creep
Into my dreams

In my dreams, in my dreams
In my dreams, in my dreams
In my dreams, in my dreams
In my dreams, in my dreams
