

# I Can't Let My Heaven Walk Away

Stevie Wonder

I can't let my Heaven walk away  
Just can't let my Heaven walk away  
Gotta find a way to make her stay  
I don't know what I've done wrong  
Look up and find my Heaven gone

Called her name but I called in vain  
I know she can't answer from a picture frame  
Only an hour ago I held in real flesh and blood  
She just grabbed her coat and said, "Please, I've had enough."

She kept me well like a Sunday prayer  
Just like my own right hand the girl was always there  
To every man but me, her eyes were blind  
I was in the promise land long before my time

I can't let my Heaven walk away  
Just can't let my Heaven walk away  
Just gotta find a way to make her stay  
I don't know what I've done wrong  
Look up and find my Heaven gone

I accused my baby of being a liar  
I said the flesh is weak in God's key trial  
I only asked her to hear her tell me no  
But my question back-fired, I didn't expect her to go

I can't let my Heaven walk away  
Just can't let my Heaven walk away  
Just gotta find a way to make her stay  
I can't let her go

I can't let my Heaven walk away  
Just can't let my Heaven walk away  
Just gotta find a way to make her stay

(I can't let my Heaven walk away)  
(I can't let my Heaven walk away)  
Just gotta find a way to make her stay
