

One of a Kind

Stevie Wonder

There we were two lonely souls
Existing from day to day
Feeling love would never
Come our way

Watching lover share their bliss
Sadly wishing only if
Believing that we had to live
Life like this

But Like a bolt of lightning
As when two stormy clouds collide
We made a joyful happening
To our lives

Now we're as happy as can be
Me loving you and you loving me
Two hearts intertwined
Which makes us one of a kind

Feeling the charge of a love evermore
Knowing that love is enough to live for
It feels so fine
Sharing love one of a kind

One of a kind now baby
Your love and mine, such ecstasy
One of kind sweet darling
The only way love is meant to be

United love so fine
Living in love one of a kind
It feels nothing but fine
Sharing our love one of kind
-Harmonica Solo-

If we had a second chance
At living a second time
We'd change everything but our love
In our lives

'Cause like a big disaster
Lost in a never-ending night
We light a light of magic
Now we're as happy as can be
Me loving you and you loving me
Two hearts intertwined
Which makes us one of a kind

Feeling the charge of a love evermore
Knowing that love is enough to live for
It feels so fine
Sharing love one of a kind

One of a kind, now baby
Your love and mind, such ecstasy
One of a kind, sweet darling

The only way love is meant to be
[Repeat]
