

# Something to Say

Stevie Wonder

Something to say

There is something, that i'd like to say to you  
There are people, who will try to put us down  
They will tell us were too young to see it through girl  
Try to make us cry  
But don't you worry  
You have me and i have you

Well there is something that I think you ought to know  
There are people, who will say our love won't grow oh no  
It's important that you face them with a smile girl  
And you tell them  
Hunny maybe someday lovin just might be worth while  
Whoa yeah  
Well there is something that i'd like to say  
And there is something that we can do today  
And there is one thing that i know has come our way  
Oh baby  
They can't hurt us, though i know they'll try  
And it will work out  
But they won't know why  
And there is something to our love that just can't die

It's important that you face them with a smile girl  
And you tell them hunny  
Maybe someday, lovin just might be worth while  
Oh baby  
There is something that i'd like to say  
And there is something that we can do today  
And there is one thing that i know has come our way  
Oh baby!  
There is something that i'd like to do  
Well there is something just for me and you  
Yes there is something that i'd like to say to you  
Oh ohhhhhh oh  
There is something that I'd like to say  
And there is something that we can do today  
And there is something that i'd like to say to you  
Hey heeeeyy yeah!

And there is something...
