## **Sunset**

## **Stevie Wonder**

Sunset, sunset
It's sunset, it's sunset

You went and left happy You're all alone You turned and walked away About this time of day It was always sunset

## Sunset

I didn't want you to see me cry So I turned my head To hide the tears in my eyes I turned when evening shadows fall That's when I miss you most of all

And oh, it's sunset Oh, sunset
