

You and Me

Stevie Wonder

oooh baby
yea yea
oooh baby
my sweet baby
ha ha

you and me
eternally
you and me
we're a reality
peace of my mind
others are searching for
and never find
we had it all the time

so in love
that's how we live
never take
darling we always give
happiness
is everyday
but it never would be
if it wasn't for you loving me

i was lost
like a rolling stone i had to roam
as if i knew
in time i'd find my way to you
here i am
in a paradise just built for two
it's good enough for me
it's good enough for you

you and me eternally
you and me we're a reality
peace of mind
others are searching for
and never find
we had it all the time

one more thing
i wanna to say
i sacrifice day and night
to keep me a good one

one more thing i forgot to say
i blessed the day i found you
cause i feel my world around you

you and me eternally
you and me we're a reality
peace of mind
others are searching for
and never find
we had it all the time

thats how we live

never take darling we always give
happiness is every single day
but it never would be if it wasnt for you loving me

you and me eternally
you and me we're a reality
peace of mind (fade)
