

The Lazy River

Stick Figure

Hanging around in the old downtown in the summertime
The sun beats down with a warm hot sound makes me feel sublime

The lazy river flows right by as I wipe the sweat from around my eyes,
The sun it penetrates right in, soaking down to my bones right through my skin.

The river takes me down
Around past the next bend
Riding along the stream
The stream that never ends
It never sleeps at night
Just keeps flowing on
Through the dark and light
As I sing here in this song

The lazy river flows right by as I wipe the sweat from around my eyes,
The sun it penetrates right in, soaking down to my bones right through my skin.
