

## Walk Of Life

Stick Figure

When I saw your face I thought I found my light  
It all started on a peaceful night, you walked into my  
life  
You say that I'm to blame, I know it's not my fault  
One will say that it did not work out, it wasn't for  
too long

Catch me on a bad day and I won't cry  
Even if the stars fall from the sky  
Look into my eyes you know I'm high  
You won't ever ever know  
I think you know

For who is to say all life is created equal  
When some die happy and some die poor  
To say that money is the root of all evil  
When money is power and nothing more  
If power brings evil and evil brings power  
Then when will the time come when the earth will devour

Catch me on a good day and I won't cry  
Even if the stars fall from the sky  
Look into my eyes you know I'm high  
You won't ever ever know  
I think you know

I see a man he's walking through my mind  
There is colors in his eyes, but he sees just fine  
And he seems so kind the way he makes me unwind  
I'm twisting through this magical space in time

Let me sing  
Let me sing a song, let me sing about you  
Every single song, yes I sing about you  
Every single song is strictly about you  
Look into my eyes you know I'm high

Take it slow  
Take it slow  
Take it slow  
Take it slow
