

## Part of Me

### Stick to Your Guns

The least that you can do is wipe off your shoes  
Before you give yourself another boost  
I'll never stoop that low because i know  
That this is just a game to you  
You're all for show  
It's so hard to think of anyone else,  
When you're too busy thinking about yourself  
You've mastered the art of giving up and i've had enough,  
I'm giving up on us  
So i'll cut my losses, no more being cautious,  
I'd rather lose it all than ever become thoughtless  
It's so hard to think about anyone else,  
When you're too busy thinking about yourself  
A person can only take so much and  
I feel like i'm losing touch.  
So for your sake and everyone around us,  
I suggest that you back up  
I can't believe you try to cheapen every thing i have achieved  
I still stand for everything  
That i always believed was the biggest part of me. part of me  
So here we go, you keep trying to pull me back down to zero,  
But at the end of the day i know i fought hard for everything,  
So do your worst  
I can take anything
