

## All I Need

## Stiff Little Fingers

When you're facing up to trouble  
And your mind has drawn a blank  
You've no money in your pocket  
Even less stashed in the bank  
When your friends seem to desert you  
And your family's offside  
Want to leave this mess behind you  
Want to run away and hide

R:

Then I want it  
Got to have it  
Hope is all I need

If you feel you're left in darkness  
If you feel you're on your own  
And the smallest of your problems  
Seems to turn up fully grown  
Don't give up on your tomorrow  
Cos you know you'll reach the dawn  
Just spit in the eye of trouble  
'Til your suffering has gone
