Can't Get Away With That

Stiff Little Fingers

You had us almost believing we were good enough for no one, no how You had us take it or leave it, it's the best deal you're gonna get right now son a little dig here, a little word did you really think that you could control us? Maybe we didn't make it clear, you can have your opinions but y ou don't own us

If I ever see your face again it will be far too soon to say the things I want to say to you.

You took us for this you took us for that You took us for granted you can't get away with that

If there comes a time when you have to decide whether to trust in someone new they have to have faith, they have to be true, they have to bel ieve in what you do

If I ever see your face again it will be far too soon to say the things I want to say to you.

You took us for this, you took us for that You took us for granted, you can't get away with that

Maybe you're thinking i'm an angry man but you were building us up so we would knock each other down and you won't get away with it....no way

If I ever see your face again it will be far too soon to say the things I want to say to you.

You took us for this, you took us for that You took us for granted, you can't get away with that I
