Punctuality's a waste of time  
Now nostalgia is past its prime  
History's a thing of the past  
Being first just cannot last

R:  
Beep beep I'm an answering machine  
I mean to say I say what I mean  
Beep beep I've got very strong views  
Plug in any loop tape you choose

My one single fault is modesty  
I'm changing my views consistently  
Amnesia's a thing I try to forget  
Who can't kick gambling? Want to bet?

R:

The case for racism is black and white  
If you want world peace you've got to fight  
Must do what you're told to be free  
Think what you like if you agree with me

Scream whenever you hear this tone (X12)
