

I Waited

Stiff Little Fingers

I waited but you never came
So everything stayed the same
Coulda been great
I waited

R:

I was still inspired but obviously out of tune
I must be dumb as shit to think, we could blow
Away these blues
I waited, I waited, I waited but you...never came

I waited, I kept the faith, I was patient in my own way
Thought you would come, thought you would stay
I waited but you never never never

R:

I waited, I kept the faith, I was patient in my own way
Thought you would come, thought you would stay
It coulda been good it coulda been great

R:

I waited but you never came
So everything stayed the same
Coulda been great
I waited

I waited, I waited, I waited but you...never came
