

No Faith

Stiff Little Fingers

You once were my friend
You once cared for the human race
Now I see avarice written across your face
I tried to help you
But you only pushed me away
I tried to listen
Then I heard you say:

R:
No Faith No Hope
No Love No Charity
Nada nada nada nada mas [repeat]

I hope you'll be happy
Living the life you have bought
Inside you've forgotten the decency
We were both taught
You've made your choice
And now I can give you
