

Don't Get It Twisted

Stillwell

You got me mistaken, feel my kindness makes me weak
Double check the laws I'm breaking, I won't turn the other cheek
You got me confused with someone who really cares
Time to forfeit you will lose, mark the cards I don't play fair
Don't get it twisted, don't let it steer you wrong
Don't get it twisted, keep the pieces where they belong
Don't get it twisted, don't let it get you high
Don't get it twisted, give you love or I'll take your life
It could be misleading from the word that's going 'round
You know how these rumors spread, do their best to take me down
Looks like you mixed it up, switched from what it really does
Look at how the truth gets cut, see what this confusion does
Don't get it twisted, don't let it steer you wrong
Don't get it twisted, keep the pieces where they belong
Don't get it twisted, don't let it get you high
Don't get it twisted, give you love or I'll take your life
